

Have your say on what matters most

We need your feedback on our draft 2025-2034 Long Term Plan.

Your feedback on roads, water, rubbish and recycling, community halls, and other issues facing our district will help shape the next nine years and impact rates from 1 July 2025.

With 93,000 people across 400,000 hectares, every community has different needs. Your voice helps us make decisions for our district!
